

Covid-19 Safety Guidelines

- Do not come into the church if you are experiencing any symptoms of Covid-19
- You must wear a face covering in church (unless exempt), there are some provided if you require one
- As you enter church please use the hand sanitiser provided
- There will be a table where you can collect the following items: a prayer sheet (which we ask you to take away with you), a candle if you wish to light one, a laminated red cross and a test and trace form with pen which we need you to complete (it can be done as a household) if you have not visited before/its been over 21 days
- There will be a table located at the front where you can light and place a candle. Light your candle from a candle already lit before putting in the sand (please make sure hand gel has dried before going near the lit flames)
- Find a seat, if a chair has a laminated red cross on then please do not use it
- When you are ready to leave take your sheets with you, please don't leave them behind, and place your laminated red cross on your chair so others know which chairs have been used.
- Follow the directional arrows to the exit door. The prayer board at the back will have pens and paper for any prayer requests. Leave any test and trace forms face down in the box provided

- Use hand sanitiser before leaving and exit through the double doors
- Please remember to observe social distancing rules as much as possible
